EXPERIENCE

Fullstack Developer
Digitalsolusindo International

10/2024 - Present

- Spearheaded the full-stack development of a custom Property Management System (PMS), ensuring seamless data synchronization between the user interface and the server-side architecture.
- Developed and maintained a robust Property Management System (PMS), managing the entire software development lifecycle from concept to deployment.
- Collaborated with cross-functional teams to identify system requirements and implement scalable solutions for property management automation.

Software Engineer
Kiriminaja

07/2023 - 10/2024

- Contributed significantly to the research and development (R&D) department, where I focused on creating and enhancing new features aimed at improving user experience and system efficiency.
- Led the implementation of fulfillment solutions and tackled complex problem-solving tasks in Kiriminaja Plus, ensuring seamless operational workflows and enhanced customer satisfaction.
- Spearheaded the integration of omnichannel marketing strategies within the Kiriminaja dashboard, optimizing cross-platform marketing efforts and improving overall engagement metrics

Backend Engineer
Kiriminaja

04/2021 - 02/2022

- Developed and implemented the SIPORAT (Letter Numbering Information System) using jQuery and AJAX, ensuring robust and efficient communication with REST APIs, and maintaining a seamless backend with Laravel and MySQL.
- Designed and implemented the web UI for the SIKETA (Letter Numbering Information System) project using jQuery and AJAX, integrating REST APIs, Laravel, and MySQL to create a responsive and user-friendly interface.
- Integrated Google email API and Google Cloud Storage (GCS) into various applications, enhancing data storage capabilities and email functionalities.

EDUCTION

Bachelor's Degree in Informatics
STMIK Adhiguna
Cumulative GPA: 3.7

09/2019 - 06/2023

CERTIFICATES

[Basic Web Programming](#)
Dicoding

[Basic JavaScript Programming](#)
Dicoding

[Starting Basic Programming with Kotlin](#)
Dicoding

SKILLS

Tools and Technologies: GitHub, VSCode, Nginx, Cloud Server
Frameworks and Libraries: Laravel, Vue.js, Next.js, Tailwind CSS, Bootstrap, jQuery, AJAX
Languages: JavaScript, TypeScript, PHP, Golang, MySQL, HTML, CSS
